

Hogg Construction

Bay Area Community Church Annapolis, MD

“The last two years have been an incredible blessing for Bay Area Community Church and for me in particular. Working with Hogg Construction to build our first phase has been a great experience. I am very thankful to [Hogg] personally for all of your support, dedication and devotion to this job. I know that we were a challenging client at times. I value your willingness to hang in there with me as we grew through the process and we are all pleased with the beautiful facility that Hogg Construction built for us.”
- Brian P. Mallare, Facility Expansion Pastor

Project Highlights

- 2008 ABC Excellence Merit Award Winner
- New contemporary 53,000 SF church facility.
- Activity oriented multi-purpose room used for fellowship hall and sanctuary seating for 700 worshippers.
- Includes pull out stage with separate sound room that has an automated heavy duty door.
- Architectural “wave wall” was complex to construct. Hogg used talented subcontractors and Hogg personnel to overcome the challenge.
- Custom color floor design in coffee café area.
- Fireside room and spacious classrooms with convenient individual restrooms.
